TOO FAST

STREET RACING THROUGH THE HEART OF TOKYO

OFFICIAL DRIVER’S MANUAL

2–4 PLAYERS • AGES 10+ • 30–45 MIN

GO FAST. GET FAMOUS. DON’T GET CAUGHT.

WELCOME TO THE MIDNIGHT RUN

The race begins on the Odaiba waterfront and ends at Tokyo Tower. Choose your route through Tokyo, build your car, collect Reputation (Rep), manage Fuel and Heat, and avoid police attention.

WIN THE RACE

The first car to reach or pass Tokyo Tower wins immediately. You do not need an exact roll.

IN THE BOX

- 1 game board and 4 car tokens
- 4 player dashboards with Fuel and Heat dials
- 25 Boost cards (green) and 25 Obstacle cards (orange)
- 16 Upgrade cards: 4 each of Nitrous, Police Scanner, Turbo and Racing Tires
- Reputation chips marked 1 and 5
- 6 oil slick tokens and 1 six-sided die

YOUR DASHBOARD

- FUEL: 5 down to 0. Burn 1 Fuel before each driving turn.
- HEAT: 0 to 5. At 5 you are Busted.
- UPGRADES: four slots, one of each type per player.

QUICK-REFERENCE PIT WALL

EACH TURN

- Parked? Stand up; turn ends.
- Otherwise buy upgrades; play Before roll cards.
- Burn 1 Fuel. If already 0, follow Out of Gas.
- Optionally fire Nitrous; roll and add modifiers.
- Apply natural 1 / natural 6 bonus.
- Move; stop for traps, Shibuya or an optional gas station.
- Resolve landing space; duel if applicable.

UPGRADE COSTS

Nitrous 3 Rep | Scanner 3 Rep | Turbo 5 Rep | Tires 6 Rep

POLICE

Caught at trap: landing, or passing through with 7+ movement. Heat 0 = warning. Heat 1+ = pay Heat in Rep and reset to 0. Heat 5 = Busted; park and reset to 2.

PIT STOP

Fuel 5 • Heat −2 • Nitrous refilled • Flat Tire fixed

DESIGN NOTES — VERSION 0.3

This manual follows the supplied RULES.md draft v0.3. Its balance changes were informed by 20,000-game simulations.

- Back Alley +5 spaces became +3.
- Speed traps now catch passing cars at movement 7+, not 6+.
- Heat 0 results in a warning without a fine.
- Players 3 and 4 receive extra starting Rep.
- There is no first-arrival bonus at Shibuya.
- Shortcut movement is capped at 6 spaces.
- Nitrous is fired after burning Fuel.
- Busted mid-move, Traffic Jam Fuel and route re-selection were clarified.

ABOUT THIS EDITION

This is a prototype driver’s manual. Board-specific landmark instructions remain on the game board and in BOARD.md.

TOO FAST / TOKYO STREET RACING

GRID SETUP

- Place the board in the middle of the table.
- Shuffle Boost and Obstacle decks separately and place them face down.
- Make four face-up Upgrade shop piles.
- Give each player a car and dashboard; set Fuel to 5 and Heat to 0.
- Put all cars on Start at Odaiba.
- The player who most recently rode in a car goes first; turns proceed clockwise.
- Each player starts with 4 Rep. Player 3 starts with 5 Rep; player 4 starts with 6 Rep.

ROUTE OVERVIEW

Choose your route when you leave Start, and choose again after stopping at Shibuya Crossing. The second-leg options are Shuto C1 Loop or Harajuku–Roppongi.

TURN ORDER AT A GLANCE

- 1 Before you roll: recover from parking, buy upgrades, play Before roll Boosts.
- 2 Burn 1 Fuel; optionally fire Nitrous; roll, modify, and move.
- 3 Resolve the space where you stop.
- 4 If another car shares your space, resolve a Street Duel.

STEP 1 — BEFORE THE ROLL

If your car is parked on its side, stand it upright and end your turn. You do not burn Fuel.

Otherwise, you may buy Upgrades by paying Rep to the bank and may play Boost cards marked Before roll.

STEP 2 — DRIVE

Reduce Fuel by 1 before rolling. If Fuel is already at 0, follow Out of Gas instead; your turn ends.

After burning Fuel, you may fire a full Nitrous. Roll one six-sided die and add modifiers:

MODIFIER	MOVEMENT
Turbo	+1
Racing Tires	+1
Slipstream	+1
Nitrous (if fired)	+3
Flat Tire	−2
Other card effects	As stated

Movement is never less than 1. A natural 6 gains +1 Heat; a natural 1 gains +1 Rep. “Natural” means the number shown on the die before modifiers.

TOO FAST / TOKYO STREET RACING

OPTIONAL RACE MODES

MODE	CHANGE
Street Cred	First car to Tokyo Tower gets +10 Rep; game ends. Most Rep wins.
Short Race	Skip leg 1. Begin at Shibuya Crossing with 8 Rep; about 15 minutes.
Hot Pursuit	All players start at 1 Heat.
Fuel Delivery	When Out of Gas, pay 3 Rep instead; refill Fuel to 5 where you are and park.
Thirsty Nitrous	Firing Nitrous burns 1 additional Fuel.

QUICK REMINDERS

- A natural 1 gains +1 Rep; a natural 6 gains +1 Heat.
- A speed trap catches passing cars only at movement 7+.
- At Heat 0, police issue a warning, not a fine.
- Nitrous fires after Fuel is burned, not before.

BOOST & OBSTACLE CARDS

BOOST — GREEN

- Draw a Boost and keep it in your hand.
- Maximum hand size: 3. Discard down to 3 if you draw more.
- Play only at the timing printed on the card: Before roll, After move, or Instant.
- Instant cards may be played at any time, even on another player’s turn.
- Discard Boosts after playing them.

OBSTACLE — ORANGE

- Resolve an Obstacle immediately when drawn, then discard it.
- Cards with lasting effects, such as Flat Tire, remain face up beside your dashboard until their effects end.

EMPTY DECKS

Shuffle the discard pile to create a new deck when a deck runs out.

TOO FAST / TOKYO STREET RACING

MOVING THROUGH TOKYO

- Move forward by your total movement, choosing a route at forks.
- At Shibuya Crossing, you must stop even if movement remains.
- You may stop early at any gas station you pass.
- Speed traps may interrupt movement; see Police & Heat.
- Narrow streets have special occupancy rules.

STEP 3 — RESOLVE YOUR SPACE

SPACE	RESULT
Plain	Nothing
Rep +3	Gain 3 Rep
Boost	Draw and keep a Boost
Obstacle	Draw and resolve immediately
Gas Station	Fuel to 5; −2 Heat; refill Nitrous; fix Flat Tire
Speed Trap	Pulled over (see Police & Heat)
Landmark	Follow the landmark rule on the board
Oil Slick	Move back 3; discard token. Racing Tires immune

CARD AND LANDMARK MOVEMENT

- If a card or landmark moves you forward, resolve the space where you land.
- If moved backward, do not resolve the landing space unless specifically instructed.
- Speed traps trigger only during normal roll movement.
- You can never move backward past Start or Shibuya Crossing. Stop there instead; choose your route again when you leave.

STEP 4 — CLASH

If your move ends on another car’s space, resolve a Street Duel, except at Start and Shibuya Crossing. Narrow streets also prohibit duels.

STREET DUEL

- Both players roll the die without upgrade bonuses. Reroll ties.
- The loser pays the winner 2 Rep, or everything they have if less than 2.
- If several cars share the space, the moving player chooses one opponent.

TOO FAST / TOKYO STREET RACING

NARROW STREETS

Dashed-outline Back Alley spaces are narrow: only one car can occupy each.

- You may drive through an occupied narrow space.
- If your move would end there, stop on the previous space instead.
- There are no Street Duels on narrow spaces.
- Cars moved backward by cards, oil slicks or Out of Gas ignore this restriction.

OIL SLICKS

Certain Boost cards let you place an oil slick token on an empty Plain space. The next car to land there moves back 3 spaces; discard the token. Racing Tires are immune.

SHIBUYA CROSSING

- Every car must stop; leftover movement is lost.
- Refill Fuel to 5; no duels here.
- On your next turn, choose Shuto C1 Loop or Harajuku–Roppongi.

BUSTED!

When Heat reaches 5, you are Busted immediately. Park your car to lose your next turn and reset Heat to 2. If Busted during movement, finish the movement first.

The Bribe a Cop Boost card can cancel being pulled over or Busted.

PARKING = LOSING A TURN

Lay your car on its side. On your next turn, stand it upright and end your turn without burning Fuel.

Parking can be caused by being Busted, an unpaid fine, the Tow Zone card, or choosing to fix a Flat Tire on the spot.

SLIPSTREAM

Start your turn directly behind another car on the same route to gain +1 to your roll.

TOO FAST / TOKYO STREET RACING

THE UPGRADE SHOP

Buy at the start of your turn by paying Rep to the bank. Each player may own only one of each upgrade. If the shop runs out, no more are available.

UPGRADE	COST	ABILITY
NITROUS	3 Rep	After burning Fuel, fire before rolling: +3 movement, +1 Heat. Turn sideways to mark empty. Refill at a gas station or pay 2 Rep at the start of a turn.
POLICE SCANNER	3 Rep	Speed traps catch you only if you land on them; passing through is safe.
TURBO	5 Rep	+1 to every roll.
RACING TIRES	6 Rep	+1 to every roll; immune to oil slicks and Rain.

PIT STOP

Gas stations refill Fuel to 5, lower Heat by 2, refill Nitrous, and fix a Flat Tire.

FUEL MANAGEMENT

- Begin with 5 Fuel. Every driving turn costs 1 Fuel before you roll, including Traffic Jam turns when you do not roll.
- Fuel can never go above 5 or below 0.
- Refill to 5 at a Gas Station or Shibuya Crossing.

OUT OF GAS

If Fuel is already 0 when you need to burn Fuel:

- Move backward to the nearest Gas Station on your route. Start and Shibuya Crossing also count.
- Refill Fuel to 5 and resolve the pit stop.
- Your turn ends. Do not roll.

DRIVER TIP

At 1 or 2 Fuel, consider stopping at the next gas station you pass—even if you have unused movement.

TOO FAST / TOKYO STREET RACING

HEAT & THE POLICE

Heat tracks police attention, from 0 to 5. Gain Heat from natural 6 rolls, Nitrous, and certain cards or landmarks. Lose Heat at gas stations (−2), when pulled over (reset to 0), and from certain card effects.

SPEED TRAPS

A speed trap catches you if you land on it, or pass through it with movement of 7 or more on that turn. If caught while passing through, stop on the trap.

PULLED OVER

- At Heat 0: warning only; no fine.
- At Heat 1 or higher: pay Rep equal to Heat, then reset Heat to 0.
- If you cannot pay the full fine, pay everything you have and park, losing your next turn.
